

13th International Congress on Psychopharmacology & International Symposium on Child and Adolescent Psychopharmacology

Overcoming Challenges: Psychiatry and Psychopharmacology
in the Post-pandemic Era

November 09th -12th, 2022
Royal Seginus Hotel / Antalya

Romayne Gadelrab

Dr Gadelrab is a Consultant Psychiatrist and Physician Scientist at South London and the Maudsley NHS Trust and the Institute of Psychiatry, Psychology and Neuroscience, Kings college London where she is researching new treatments for mood disorders. She also holds an Honorary post at the National Centre for Internet Gaming Disorders and is co-chair of the Royal College of Psychiatrists Digital Special Interest Group. Dr Gadelrab has a particular interest in the effects of new technologies on mental health, running public workshops to explore this theme; including the Tate Modern Gallery London and national Museum of Computing. Dr Gadelrab graduated in medicine from University College London. She holds a bachelors in Management from Imperial College London and Postgraduate diploma in Innovation from Elisava school of Design.
